

Meet the Envy Profile System

Settings management has never been this easy and fun

Meet the Envy's patent-pending profile system, which offers unprecedented power and flexibility for settings management, while maintaining the ease of use our customers love. But please don't take our word for it. Here's what a devoted Envy customer has to say:

"The integration of the profiles is state of the art! The profiles are quite simple to use yet very powerful. Bravo! It's so rare to see such a good design at the first beta iteration. I easily created display profiles for 16/9 and 2.35 aspect ratios, mainly to set my preferred Screen Boundaries and Black Bar settings for these aspect ratios. And it's working great. Congratulations on this release. Everything continues to be very stable, and I love my Envy now more than ever!" – Dave C.

We think you'll enjoy learning about the profile system, as it's surprisingly fun to use! The [Introduction to Profiles](#) guide will get you up to speed quickly, while the [Profile User Guide](#) contains everything you need to master profiles in no time at all.
